

## THE EVOLUTION OF BOARDS

This tool is designed to help Board members become aware of different levels of Board member behavior and effectiveness. At the “Fiduciary” level, Board members review reports, highlight successes, and identify problems. At the Tactical level, Board members tackle short-term issues and engage in problem solving. At the Strategic level, Board members weigh different value propositions, engage in robust debate, and set the long-term goals of the organization.

<sup>1</sup> Unity of Control is the principle that a Board directs the executive, not individual Board members. In practice, it means that no instruction from a Board member is binding on the executive or an employee until the Board votes to approve it. When practiced effectively, it also means the executive should alert the Board when an individual Board member – either intentionally or unintentionally – violates the Unity of Control.
